RICHMOND CALIFORNIA, SATURDAY, SEPT. 11,1915 NUMBER [illegible]

LACK OF PRESSURE DETRIMENT: CITY IN DANGER OF FIRE

A startling condition in the matter of fire protection in this city has been developed by the Richmond Fire Department's recent investigation concerning water pressure from the hydrants of the Peoples Water company. Several tests were made by Chief LaMoine and his assistants. Some of the tests were made on the Washington hill and others at different points along Macdonald avenue and a pitiful lack of pressure every where was found.

In the first test made 1150 feet of 2½-inch hose were laid along Washington avenue up the hill from a fire hydrant at Washington and Richmond avenues. There was found to be at the nozzle pressure of 2½ pounds and there was discharged from the nozzle under the pressure 42 gallons per minute.

A test made at the top of the hill brought practically no pressure at all, although the hose used was only 100 feet in length. A similar condition was found to exist by a test made at another point in the vicinity of the top of the hill.

In a test made on Macdonald avenue at Tenth street a nozzle pressure of 18 pounds was obtained from the top of the Elk's building.

All this goes to show that so far as the actual protection from the Richmond Water System for fire purposes is concerned there is pracically none, although the city has spent thousands upon thousands of dollars fire-fighting paraphernalia. All that we have to depend upon are three chemical engines and these would not amount to a great deal in a general conflagration, but are invaluable for extinguishing incipient blazes.

There is a movement on foot to bring water from Marin county to Richmond and this reminds us that although the Richmond Water Commission members are still drawing salaries from the coffers of the taxpayers, that body for months past has been in a dormant condition.

It has been suggested that the right thing to do at this time would be to get busy with the Marin county project and if found feasible the commission might put the matter of a small bond issue up to the people Plenty of pure mountain water would be a mighty boon for Richmond for domestic purposes as well as fire protection. On the one hand it would be an incentive to increase the population and on the other it would mean a great decrease in insurance rates.

It is understood that the whole scheme might be worked out, including reservoirs and a distributing system for a little over a million dollars and if this is true it is worth looking into. At any rate so long as we have a water commission why not have it doing something? The people are paying them for their work and are certainly entitled to a corresponding amount of service in return.

BRAZIL-BUTCH BOUT IS STAR OF FLOYD'S

Frank Brazil and Young Butch, two local products staged one of the fastest boxing contests ever dished up for local fans at Kirby' Floyds show at the Eighth street skating rink last night: Brazil displayed very pretty footwork, and gave Butch a merry time of it. Butch however brought over some husky swings and both boys stood toe to toe and slammed away a goodly portion of the entertainment.

In Frankie Campbell Richmond has a champion. He never missed a punch. The punches were delivered by one Young Silvester, alad of the toothpick build who sent rights, lefts swings, uppercuts, etc., into Frankie. Had Frankie's front porch been two feet nearer his ribs, he might have been able to do so something for his country.

Sylvester took the decision. Battling Piver stubbed his eye on Kid Goldie's shoulder in the first spasm, and sustained a cut which resulted in the match being classed "no contest."

Whitey Smith and Joe Gorman handled the main event, and waltzed a very pretty four rounds. It was a draw. Neither had the advantage. Someone opened the gate at the toothpick works and when one emerged it was christened Frank Mandot. Jimmy West, substituting for Battling Verra, let caution to the winds and swinging his mittens like a young windmill, battered the thin lad all over the place. Mandot's seconds tossed up the sponge in the first.

Young Gorman and Jack Smith opened festivities, Gorman grabbing the decision. It was pretty fair show and quite a gang of fans were on the job to witness the entertainment.

Frank Smith refereed.

Trio of Richmond Escape Clutch of the 'White' Doom

After experiencing exciting adventures in the great "white wilderness" of the interior of Alaska in the quest of gold, three Richmonders returned to this city yesterday after a harrowing trip of three months in the great north.

They are J. Riley, a popular member of the Sons of St. George; W. Dawson, a cooper at the Standard Oil company and "Scotty" McDonald, well known in this city.

The party was lost on several occasions and succeeded in escaping from the clutch of the White Demon by narrow margins. "It was a great trip, alright," said Riely last night, and it was interesting, too. I am glad to have had the experience, but I am not particularly anxious to enjoy it again."

DON'T MIND WATER ITEM

Mayor Davie of the famous city of Oakland of the county of Alameda believes in "cutting expenses." Slaughtering perhaps might be be a better name for it. The mayor with the able assistance of two members of the council has succeeded in slashing the allowance of the board of Education; of the Park Board; of the street department and other departments. His next move, we are informed, will be to "cut" the electric light and water bill. However, the city employes are not particularly enxious about this latter item.

ITS IN AGAIN

Again Washington dispatches announce "Break with Teutonic Power is possible". This announcement is beginning to become quite a habit. Every week for the past six months of the European war, the bay city dailies have been inflicting upon their readers long despatches explaining the possibilities of a break in diplomatic relations.

Unless we are greatly mistaken, this latest break will break as usual—in a waste of valuable front page space and a number of editorial outbreake.

A remarkable grasp of social and economic conditions was shown by seventh and eighth grade pupils of the public and parochial schools of San Francisco, who participated in the Labor Day essay contest on "The Achievements and Aspirations of Organized Labor."

The following are extracts from the prize winning essay of Vivien McNab of the Laguna Honda school: In the 18th century the coal worker of England belonged to the soil. When the land was sold the workmen passed to the new owner like a slave. The individual workman could do little or nothing to assert his rights or amend his wrongs. When he demanded hours and wages that would enable him to support his family he was scoffed at by his employer.

"By organizing, labor has become honorable and dignified. There has always been astruggle between capital and labor. Had labor not organized the workmen of today would be plodding on through dark weary hours, unable to educate his children own his home or enjoy his family.

It is the labor who has built the Panama canal, the mighty railroads and our great state and city buildings. The Panama-Pacific Exposition, the most beautiful creation of man, is the work of his hands. Thus by organizing he has learned all these things. He hopes in time to act with his employer just as one business partner acts with another.

The following statements are taken from the prize essay of Ella A. Rocca of St. Francis Presentation Convent: "This state, as a body, is composed of individuals of whom the greater part is the laboring class. The strength of such individuals is the body. Its a fact that an increased living wage puts the laborer in a position to give his children better food and a liberal education. The young man coming to his citizenship so equipped and strengthened gives better support to the state and exerts a power productive of the state's development.

The demands which organized labor make upon society and upon the state are in themselves sufficient to prove that its aspirations are pure, high and noble. It aspires to give economic conditions a security by safe guarding and increasing present benefits; to make the laborer better socially, morally, intellectualsy and financially. It is the hope of every true American that the time is not far distant when organized labor will be universally acknowledged as a large and reliable factor for humanity's good."

OF INTEREST TO MUSIC LOVERS

By Miss E. M. LaSelle)

I have been asked to write something relative to the art of singing and I should like to refer to method for so many have asked me what method I teach, and method seems to mean so much to them.

William Shakespear the noted teacher of singing has a definition which is worth hearing. It is as follows:

"Singing is a perfect prolonged talking and a tune, often much higher than speaking, and with a control of breath not used in speaking."

There is only one correct way to produce a tone and there are many diverging roads to this point. It is surprising how different every one has to be delt with. Yet the principles are the same.

There is only one correct way to sing correctly and that is to sing naturally, easily, and comfortably. The height of vocal art is to have no apparent method but to be able to sing with perfect facility from one end of the voice to the other, emitting all the tones clearly and with equal power, and each tone of the scale to sound the same in quality.

The singer must have some knowledge of his, or her anatomical structure, particularly the structure of the throat, mouth, fact, with its resonant carities which are so necessary for the right production of the voice.

The whole breathing apparatus lungs, diaphragm, ribs and back muscles [illegible] for the foundation of singing is breathing and breath control, thus making it a health producer as well as a pleasure by strengthening the lungs and throat.

Hard work accomplishes wonders where the voice is concerned and real hard work must be accomplished before lasting success can be attained.

R. A. Chamberlain of 225 4th St. instructor on the trap drums at the Baker Conservatory of Music, has been called to Stockton to the bedside of his neice who is seriously ill.

AT THE RICHMOND

"Chimmie Fadden" one of the best known American comedies of the age will be featured this evening at the Richmond theater with Victor Moore in the title role. The play which followed thebook of the same name is the foundation for the filmed production and it is an offering which has been eagerly signed up by theatrical men all over the country. In addition to this very clean and wholesome German and Irish comedy of the Old New York Bower, a comedy "Beautiful Love" and the two reel drama, "The Shadowgraph Letter" complete this evenings bill.

Tomorrow the best vaudeville show in months will be given by Manager Jack Hunter. Topping the list is the Thaten Duo with her singing goose. This is a Holland scene and the goose is a real live musical attraction. Joe Bennett from the Empresse theater in black faced numbers. The Three Clares in musical novelties and Barnes and Stock in the comedy singing and talking art make a great bill.

BEDSTEADERS HEADED BY SLATS AND GANG OF CROCKETT HICKS TO VISIT OUR CITY TOMORROW

Headed by the famous Slats Murphy, the equally famous Beadsteaders of Crockett will invade Richmond tomorrow afternoon for a cleaning up at the hands of the famous Bill Luce's Richmond Elks. When these celebrities gather on the field at Luce's Luce Park, five hundred or more Crockett fans, the Crockett band and a few other antiques will be strung along the sidelines vying verbal exclamations with the local fans.

The visitors have much to gain. A victory over the Elks will mean an opportunity to get in line for the state title. Defeat and the boys from the land of sugar will be compelled to remain as before—deep in the depths of Baseball Oblivion. (Quick Archibald the dictionary)

The visitors have a fairly classy looking club. Many of the young men are well known in this city and while it is a shame to clean 'em up, it must be done.

Prominent among Slats' gang is Culver in right field. Culver is the young gentleman who while garbed in a Martinez uniform picked up a liner in right field from the bat of William Emery Cunningham, and threw that hero out at first, shutting off Richmond's chances for victory.

Culver has seen the error of his ways, and when he came to realize what sort of a burg he was representing he beat it. However it appears as if he had jumped from the dish pan into the fire.

The visitors will line up as follows: Lundburg, p; Roundtree, c; Crowley, 1b; Keleber, 2b; Conners, 3b; Connick, ss; Soares, lf; O'Neil, cf; Culver, rf.

Why Don't YOU

sell your car through the No Commission Auto Market? Others are doing it every day. No trouble to find a buyer if you leave your car with us. No charge for selling and only $2.50 for display for one week. We are located at 20th and Broadway, Oakland. Phone Lakeside 1842.

AT PANTAGES

A show that has shattered all box office records on the Pantages circuit opens at the Oakland vaudeville house on Sunday. T he program is unquestionably one of the strongest seven act bills that has been offered by the popular priced theater in years.

Topping the bill will be Mme. Henriette De Serric and sixteen living models in reproduction of the world's famous Art works.

Webber's ten clever juvenile musicians billed as "The Melodyphiends" is another big feature on the new bill.

Arthur G. May and Sunny Kalduff will return with their laughable travesty on country justice entitled "The Limb of the Law" which introduces the famous "Ruben Glide." The Alexander Brothers in a clever manipulation of bouncing balls. The University Four, quartette of harmony singers. Dancing Davey in an unique novelty and a delightful domestic one act sketch 'their wedding night,' with Welch and Carbasee in the principal roles, will round out the rest of the strong bill.
